Endwall Column attachment
located between Purlins at Slope

Notes:
1.) See AC00916 / AC00920 for Jamb/Support Column attachment when located at same Purlin space (or adjacent Purlin space) as Endwall Column.
2.) Bridge Channel may span multiple Purlin spaces when required.
3.) Wind Edge Strip Purlins, when required, do not attach to Bridge Channel.
4.) Purlins and Purlin Strut extends past Bridge Channel flange when "Optional" Overhang or Facade is required at endwall.

Purlin
Bridge Channel
Cold Formed - BGC_ _ _ (Shown)
Hot Rolled - BG_ _ _ (Similar)

Purlin Strut
(When required.)

(4) \( \frac{1}{2} \)" Bolts
(Typical at Purlins and Purlin Strut)

(4) \( \frac{3}{4} \)" A325 Bolts

Endwall Column or Column Extension
(Bolt to downhill side of Connection Plate.)

Notes;
