**Rake Trim**
(Profile May Vary)

**Fastener HW933**
#6 x 1" Rubber Grommet W/Washer
1'-0" O.C.

**Light Transmitting Panel (LTP)**

---

**Note:** Light Transmitting Panel (LTP) may require field cutting. If field cutting is required follow these steps:

- Up to five (5) LTP’s may be cut at one time.
- A circular saw with 24 teeth per inch blade will works best.
- Cut slow and allow the blade to work without excessive pressure.
- Allow the blade to cool between cuts.
